Advierta lo que le dicen las llantas mientras conduce:

- Si su respuesta a la dirección es lenta o si en las curvas y en el frenado la respuesta es pesada, es muy probable que sus llantas estén desinfladas.
- Vibración o tambaleo durante la conducción, puede significar que la presión en las llantas es mayor a la recomendada, o que ha ocurrido un daño en la llanta y la falla es inminente.
- La llanta puede vibrar a ciertas velocidades debido al desbalanceo, en este caso su desgaste será muy acelerado.

**RECUERDE SIEMPRE REVISAR LA PRESIÓN DE AIRE EN SUS LLANTAS
ANTES DE COMENZAR A RODAR**

PREFACIO

Es nuestro placer presentarles a ustedes el Catálogo de Partes.

Este Catálogo ha sido especialmente diseñado para ayudarle en la selección de las partes correctas con el fin de mantener el vehículo en las mejores condiciones.

Los repuestos originales están sujetos a un exigente estándar de control de calidad, por lo tanto es necesario que usted sólo use repuestos originales.

En nuestro constante esfuerzo para mejorar la eficiencia y desempeño de su vehículo, las especificaciones, diagramas y número de partes pueden cambiar sin previo aviso. Consecuentemente las descripciones de los repuestos en este Catálogo pueden no ser las finales y definitivas.

Las alteraciones y modificaciones que ocurren en la impresión de este Catálogo, serán informadas a nuestra red, a través de circulares de Servicio o en nuestra página **web: www.auteco.com.co** accediendo al link **repuestos**. Es requisito que usted actualice su Catálogo y haga las correcciones necesarias, una vez reciba dichas circulares. Lo anterior le asegurará un rápido y adecuado despacho de sus partes, pues las órdenes están siendo diligenciadas con las referencias más actualizadas.

En caso de necesitar asistencia técnica, comunicarse con el Distribuidor Autorizado o llamar al Departamento de Servicios Auteco.

This diagram shows an exploded view of a carburetor assembly. The main body is a cast metal casting with various ports and mounting points. The components are numbered as follows:

- 1**: A large hexagonal nut or cap nut, shown separately on the right with a callout box pointing to its location on the main body.
- 2**: A circular gasket or washer, shown above the main body.
- 3**: A thin circular washer or spacer, shown below the gasket 2.
- 4**: A vertical cylindrical component, likely a jet or needle, mounted on the top of the main body.
- 5**: A long vertical bolt or screw, shown to the right of the main body.
- 6**: A hexagonal nut, shown above the main body.
- 7**: A vertical bolt or screw, shown to the left of the main body.
- 8**: A long vertical bolt or screw, shown at the top of the main body.
- 9**: A vertical bolt or screw, shown to the left of the main body.
- 10**: A small hexagonal nut or cap nut, shown on the left side of the main body.
- 11**: A small circular washer or spacer, shown next to the nut 10.

pulsar
180GT

This exploded view diagram illustrates the assembly of a carburetor. The main components are shown in their relative positions for installation. The carburetor body (1) is the central component, with the float bowl (2) attached to its bottom. The float valve assembly (3) is shown being inserted into the float bowl. The float bowl gasket (4) is positioned between the bowl and the body. The float needle (5) is shown being inserted into the float valve. The float needle seal (6) is shown being inserted into the float needle. The float needle guide (7) is shown being inserted into the float needle. The float needle guide seal (8) is shown being inserted into the float needle guide. The float needle guide seal (9) is shown being inserted into the float needle guide. The float needle guide seal (10) is shown being inserted into the float needle guide. The float needle guide seal (11) is shown being inserted into the float needle guide. The float needle guide seal (12) is shown being inserted into the float needle guide. The float needle guide seal (13) is shown being inserted into the float needle guide. The float needle guide seal (14) is shown being inserted into the float needle guide.

pulsar
180GT

This exploded view diagram illustrates the assembly of a 125cc engine cylinder and piston. The components are numbered as follows:

- 1**: Spark plug
- 2**: Gasket
- 3**: Piston pin
- 4**: Piston pin clip
- 6**: Piston
- 7**: Piston rings
- 8**: Piston pin
- 9**: Piston pin clip
- 11**: Piston pin clip
- 12**: Piston pin
- 13**: Piston pin clip
- 14**: Piston pin clip

pulsar
180GT

An exploded view diagram of a mechanical assembly. The components are numbered 1 through 9. Part 1 is a long cylindrical shaft with a flange at one end. Part 2 is a shorter cylindrical shaft. Part 3 is a complex bracket or housing with a central opening. Part 4 is a small cylindrical pin. Part 5 is a small cylindrical pin. Part 6 is a large coiled spring. Part 7 is a long cylindrical shaft with a flange at one end. Part 8 is a small cylindrical pin. Part 9 is a group of three washers or spacers of different thicknesses. The diagram shows the relative positions and assembly sequence of these parts.

pulsar
180GT

This exploded view diagram illustrates the components of a mechanical assembly, numbered 1 through 15. The parts are as follows:

- 1:** A main cylindrical housing or bellows assembly.
- 2:** A small circular component, likely a seal or gasket, located at the front of the housing.
- 3:** A small circular component, likely a seal or gasket, located at the rear of the housing.
- 4:** A long, thin, curved metal plate or lever.
- 5:** A large, circular gear or flywheel with multiple holes.
- 6:** A small, cylindrical component, possibly a pin or bush.
- 7:** A small, circular component, possibly a pin or bush.
- 8:** A small, cylindrical component, possibly a pin or bush.
- 9:** A long, thin, curved metal chain or belt.
- 10:** A small, cylindrical component, possibly a pin or bush.
- 11:** A small, cylindrical component, possibly a pin or bush.
- 12:** A small, cylindrical component, possibly a pin or bush.
- 13:** A small, cylindrical component, possibly a pin or bush.
- 14:** A small, cylindrical component, possibly a pin or bush.
- 15:** A small, cylindrical component, possibly a pin or bush.

The diagram shows the relative positions and assembly sequence of these components. A dashed line indicates that parts 1, 2, and 3 are assembled together. The components are arranged in a way that shows their relationship to each other, with some parts like 11, 12, 13, 14, and 15 being shown in a separate group on the right.

pulsar
180GT

This exploded view diagram illustrates the components of a carburetor assembly. The parts are numbered as follows:

- 1**: Gasket
- 2**: Top mounting stud
- 3**: Carburetor body
- 4**: Spring
- 5**: Pin
- 6**: Piston
- 7**: Fuel line
- 8**: Fuel inlet fitting
- 9**: Fuel outlet fitting
- 10**: Piston rings
- 11**: Pin
- 12**: O-ring

pulsar
180GT

This diagram illustrates the exploded view of a mechanical assembly, showing 16 numbered components. The assembly is oriented diagonally from the bottom-left to the top-right. The components are as follows:

- 1**: A long, thin shaft or pin.
- 2**: A small pin or screw at the end of the shaft.
- 3**: A small washer or spacer.
- 4**: A small pin or screw at the other end of the shaft.
- 5**: A small gear or pulley.
- 6**: A large, multi-lobed gear or pulley.
- 7**: A large, multi-lobed gear or pulley.
- 8**: A small gear or pulley.
- 9**: A small gear or pulley.
- 10**: A small gear or pulley.
- 11**: A small washer or spacer.
- 12**: A large, multi-lobed gear or pulley.
- 13**: A small gear or pulley.
- 14**: A small pin or screw.
- 15**: A small washer or spacer.
- 16**: A large, multi-lobed gear or pulley.

The components are shown in their relative positions, indicating how they fit together to form the complete assembly.

pulsar
180GT

This diagram illustrates the exploded view of a mechanical assembly, featuring 13 numbered components. The assembly is shown in a perspective view, with components arranged along a central axis. The components are as follows:

- 1**: A large cylindrical housing or shaft.
- 2**: A small pin or screw.
- 3**: A small pin or screw.
- 4**: A long, thin rectangular plate or base.
- 5**: A small cylindrical component.
- 6**: A small pin or screw.
- 7**: A small pin or screw.
- 8**: A small pin or screw.
- 9**: A small pin or screw.
- 10**: A small pin or screw.
- 11**: A small pin or screw.
- 12**: A large gear or flywheel.
- 13**: A small gear or flywheel.

The components are arranged in a sequence that suggests their assembly order, with the large housing (1) at the front and the small components (5, 9, 6, 7, 10, 11) at the back. The gears (12 and 13) are positioned in the middle of the assembly.

FIGURA N° 9: TRANSMISIÓN (2/2)

[illegible]

An exploded view diagram of a mechanical assembly, likely a hydraulic cylinder or actuator. The components are numbered 1 through 11. A dashed line indicates the assembly path. Part 1 is a piston rod with a T-shaped head. Part 2 is a forked bracket. Part 3 is a connecting rod. Part 4 is a long shaft. Part 5 is a main body or cylinder. Part 6 is a small pin. Part 7 is a small ring. Part 8 is a flange or cap. Part 9 is a large ring. Part 10 is a small pin. Part 11 is a small ring. A red line points to a specific feature on part 5.

pulsar
180GT

This exploded view diagram illustrates the assembly of a mechanical component, likely a lever or actuator. The parts are numbered 1 through 16:

- 1**: A long, cylindrical shaft with a threaded end.
- 2**: A small, curved metal piece that fits around the shaft.
- 3**: A small, cylindrical pin or bush.
- 4**: A small, curved metal piece, similar to part 2.
- 5**: A small, cylindrical pin or bush, similar to part 3.
- 6**: A long, curved lever arm.
- 7**: A cylindrical roller or wheel at the end of the lever arm.
- 8**: A small, curved metal piece.
- 9**: A long, thin rod or pin.
- 10**: A small, cylindrical pin or bush.
- 11**: A small, cylindrical pin or bush.
- 12**: A cylindrical component, possibly a roller or wheel.
- 15**: A small, curved metal piece.
- 16**: A small, curved metal piece.

pulsar

FIGURA N° 15: CUBIERTA VOLANTE / CUBIERTA CADENA

[illegible]

This exploded view diagram illustrates the assembly of a mechanical component, likely a timing belt or a similar drive mechanism. The parts are numbered as follows:

- 1:** A small pin or screw.
- 2:** A large, flat, rectangular plate or cover.
- 3:** A circular gear or pulley.
- 4:** A small circular component, possibly a cap or a seal.
- 5:** A circular component with a central hub.
- 6:** A circular gear or pulley.
- 7:** A series of five circular gears or pulleys arranged in a row.
- 8:** A small spring.
- 9:** A small pin or screw.
- 10:** A small circular component.
- 11:** A small circular component.
- 12:** A small circular component.
- 13:** A small pin or screw.
- 14:** A small circular component.
- 15:** A small circular component.
- 16:** A small rectangular component.
- 17:** A small circular component.
- 18:** A small circular component.
- 19:** A small circular component.
- 20:** A large circular gear or pulley.

The diagram shows the relative positions and assembly sequence of these parts, with dashed lines indicating the alignment and fit of the components.

This diagram shows the exploded view of a motor unit assembly. The main component is the motor housing (1). Key parts and their assembly points are indicated by dashed lines and numbers:

- 3**: A curved duct or elbow that fits into the top of the motor housing.
- 4**: A hose clamp used to secure the duct (3) to the housing.
- 2**: A set of four screws used to secure the top cover (6) to the motor housing.
- 6**: The top cover of the motor unit.
- 7**: A rectangular plate or gasket that fits between the top cover (6) and the motor housing.
- 5**: A large, flat rectangular panel that fits into the front of the motor housing.
- 5A**: A smaller, grid-patterned panel that fits into the front of the motor housing, behind panel 5.
- 8**: A long, thin cylindrical component, likely a filter or a support rod, located below the main assembly.

This diagram illustrates the exploded view of a vacuum furnace assembly. The components are numbered as follows:

- 1**: The main furnace body, which includes a top flange (7) and a base.
- 2**: A small cylindrical component, likely a thermocouple or sensor.
- 3**: A mounting bracket or support for component 2.
- 4**: A larger cylindrical component, possibly a heater or a secondary sensor.
- 5**: A rectangular base plate or support structure.
- 5A**: A rectangular base plate or support structure, shown as an alternative or additional part.
- 6**: A curved duct or pipe, likely for vacuum extraction or gas flow.
- 8**: A top flange or lid component.
- 9**: A long, flexible hose or cable, likely for vacuum extraction or gas flow.
- 10**: A connector or fitting at the end of the hose.
- 11**: A small cylindrical component, likely a thermocouple or sensor.
- 12**: A curved duct or pipe, likely for vacuum extraction or gas flow.
- 13**: A small cylindrical component, likely a thermocouple or sensor.
- 14**: A mounting bracket or support for component 13.

- 4**: Pin or clip.
- 5**: Bolt or screw.
- 6**: Shaft or pin.
- 7**: Nut or washer.
- 8**: Bracket or support plate.
- 9**: Small gear or pinion.
- 10**: Bolt or screw.
- 11**: Motor or actuator unit.
- 12**: Bolt or screw.
- 13**: Cover or housing part.
- 14**: Bolt or screw.
- 15/15A**: Small pin or clip.
- 16**: Washer or spacer.
- 17**: Wheel or pulley.

The diagram shows the relative positions and assembly sequence of these components, with dashed lines indicating the alignment and fit of the parts.

This technical drawing is an exploded view of a mechanical assembly. The main assembly is shown in a perspective view, with various components labeled with numbers. The components are as follows:

- 16A**: Two long, thin, curved metal plates or levers.
- 15A**: A single long, thin, curved metal plate or lever.
- 16**: Two larger, dark-colored curved metal plates or levers.
- 10**: A small pin or screw.
- 8**: A small pin or screw.
- 4**: A small pin or screw.
- 1**: A small pin or screw.
- 3**: A small pin or screw.
- 2**: A small pin or screw.
- 13**: A small pin or screw.
- 7**: A small pin or screw.
- 5**: A small pin or screw.
- 11**: A small pin or screw.
- 9**: A small pin or screw.
- 14**: A small pin or screw.
- 12**: A small pin or screw.
- 6**: A small pin or screw.

The diagram shows the assembly of these components into a larger structure, likely a mechanical linkage or a support frame. The exploded view allows for a clear understanding of the relative positions and orientations of the parts.

This exploded view diagram illustrates the assembly of a vehicle chassis. The main components are labeled with numbers 1 through 18. The central part of the diagram shows the main chassis frame (1) with various mounting points. On the left, a steering knuckle assembly is shown, including a steering arm (2), a tie rod end (3), a tie rod (4), a tie rod nut (5), and a steering knuckle (6). On the right, a shock absorber assembly is shown, including a shock absorber (13), a shock absorber nut (15), a shock absorber washer (16), a shock absorber cap (17), and a shock absorber pin (14). The diagram also shows various other components such as a control arm (7), a control arm bush (8), a control arm pin (9), a control arm nut (10), a control arm washer (11), a control arm pin (12), a control arm nut (18), and a control arm washer (19). The diagram is a technical illustration showing the relationship between the various parts of the chassis assembly.

The diagram shows an exploded view of a mechanical assembly. The main assembly is enclosed in a dashed box labeled '1'. It includes a central component (3) with various attachments. A screw (4) is shown being inserted into a hole in component 3, with a washer (5) positioned below it. A pin (2) is shown inserted into a hole in component 3. A rod (7) is shown passing through a hole in component 3, with a cap nut (8) on one end and a pin (7) on the other. A piston (10A) is shown below component 3, with a piston seal (9B) and a piston retainer (9A) positioned above it. A bleed screw cap (5) is shown to the left of the piston. A dust cap (8) is shown to the right of the piston. An insulator (7) is shown to the right of the piston. A legend box labeled '10' is located to the right of the main assembly, listing the following parts:

- 9 Retenedor
- 9B Sello de Pistón
- 5 Capuchón Tornillo de Sangrado
- 8 Guardapolvo
- 7 Aislante
- 10A Pistón

This diagram shows an exploded view of a rear suspension assembly. The components are numbered as follows:

- 1**: Lower control arm (LCA) with a ball joint at the front and a threaded end at the rear.
- 2**: A threaded rod or pin that fits into the end of the LCA.
- 3**: A bush or spacer that fits onto the threaded rod.
- 4**: A small pin or clip that secures the assembly.
- 5**: A spring or shock absorber component.
- 6**: A small pin or clip that secures the spring/shock assembly.
- 7**: A bracket or mounting plate that the spring/shock assembly attaches to.
- 8**: A large cylindrical component, likely a shock absorber or coil spring.
- 9**: A small pin or clip that secures the large cylindrical component.

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The parts are numbered 1 through 31. The diagram is organized into three main vertical sections separated by dashed lines. The left section shows a vertical assembly of parts 1 through 10, including a long shaft (1), a green pin (7), a grey housing (4/5), and various seals and washers (2, 3, 6, 15, 26, 27, 31). The middle section shows a vertical assembly of parts 8 through 10, including a long shaft (8), a grey housing (9), and various seals and washers (30, 29, 10). The right section shows a vertical assembly of parts 11 through 25, including a long shaft (11), a grey housing (17), a black housing (23), and various seals and washers (12, 13, 14, 16, 18, 19, 20, 21, 22, 24, 25). A separate part, 28, is shown at the top right. The diagram uses dashed lines to indicate the assembly sequence and the relative positions of the parts.

This exploded view diagram illustrates the components of a motorcycle fuel tank assembly. The main fuel tank (1) is shown at the top right, featuring a circular filler cap. Various fasteners and sub-assemblies are shown in their relative positions for assembly. The components are numbered as follows:

- 1**: Main fuel tank
- 2**: Fastener at the top rear of the tank
- 3**: Small fastener
- 4**: Small fastener
- 5**: Small fastener
- 6**: Small fastener
- 7**: Fastener at the bottom right of the tank
- 8**: Fastener at the bottom right of the tank
- 9**: Side panel
- 10**: Side panel
- 11**: Fastener for side panel
- 12**: Fastener for side panel
- 13**: Fastener for side panel
- 14**: Fastener for side panel
- 15**: Side panel
- 16**: Side panel
- 19**: Small curved panel
- 20**: Fastener for side panel

This diagram illustrates the exploded view of the handle assembly. The components are labeled as follows:

- 1**: The main handle body, shown in two orientations.
- 2**: The grip section of the handle.
- 3**: A small cylindrical component, likely a pin or spacer.
- 4**: Two small cylindrical components, likely pins or spacers.
- 5**: The main body of the tool, shown in a perspective view.
- 6**: A small cylindrical component, likely a pin or spacer.

This exploded view diagram illustrates the components of a motorcycle headlight assembly. The parts are numbered as follows:

- 1**: Main headlight housing.
- 1/A**: Alternative view or part of the main housing.
- 2**: Upper fairing or lens cover.
- 3**: Small pin or clip.
- 4**: Small pin or clip.
- 5**: Small pin or clip.
- 7**: Mounting bracket.
- 8**: Mounting bracket (shown with dashed lines indicating assembly position).
- 9**: Headlight lens or reflector.
- 10**: Mounting bracket.
- 11**: Vertical mounting post.
- 12**: Bolt or screw.
- 13**: Bolt or screw.
- 14**: Side fairing or cover.
- 18**: Wiring harness with a coil.
- 20**: Lower fairing or lens cover.

180GT

This exploded view diagram illustrates the assembly of a rear fender. The main components are labeled as follows:

- 1:** A black, curved fender liner or pad.
- 2:** A small black plastic clip or fastener.
- 3:** A small metal pin or fastener.
- 4:** A black plastic bracket or support piece.
- 5:** A small black plastic clip or fastener.
- 6:** A cylindrical metal pin or fastener.
- 7:** A black plastic bracket or support piece.
- 8:** A small metal pin or fastener.
- 9:** A rectangular metal plate or support piece.
- 10:** A small black plastic clip or fastener.

The image displays 20 individual parts for a Pulsar GT motorcycle kit, arranged in a grid-like fashion. Each part is numbered from 1 to 20. The parts include:

- 1: Pulsar logo (stylized script)
- 2: Long, narrow fairing piece with a red and black design.
- 3: Another long, narrow fairing piece, similar to part 2.
- 4: Small, curved fairing piece.
- 5: Another small, curved fairing piece.
- 6: Large, vertical fairing piece with a red and black design.
- 7: Another large, vertical fairing piece, similar to part 6.
- 8: Small, curved fairing piece.
- 9: Another small, curved fairing piece.
- 10: Long, narrow fairing piece with a red and black design.
- 11: Another long, narrow fairing piece, similar to part 10.
- 12: Long, narrow fairing piece with a red and black design.
- 13: Another long, narrow fairing piece, similar to part 12.
- 14: Large, vertical fairing piece with a red and black design.
- 15: Another large, vertical fairing piece, similar to part 14.
- 16/17: A set of curved, parallel lines, likely for a helmet or visor.
- 18/19: A stylized GT logo.
- 20: A pair of goggles.

180 GT

The diagram shows a Nitro US ski binding with five numbered callouts:

- 1: The right toe piece, which is a black plastic component with a metal spring arm.
- 2: The left toe piece, identical to the right one.
- 3: The right heel piece, a black plastic component with a metal spring arm.
- 4: The left heel piece, identical to the right one.
- 5: The central mounting plate, a silver metal plate with the "NITRO US" logo, which connects the toe and heel pieces to the ski.

FICHA TÉCNICA PULSAR 180 GT - GT BS-IV

CARACTERÍSTICAS	UNIDAD
Motor	4T, Monocilíndrico
Diámetro x Carrera	63.50 mm x 56.40 mm
Índice de Compresión	9.5 +/- 0.5 : 1
Potencia Máxima	17 HP @ 8.500 rpm
Torque Máximo	14.22 Nm @ 6.500 rpm
Sistema de Ignición	CDI Digital con Microprocesador
Bujías	NGK CR8E o CHAMPION RG4HC (2 Unidades)
Tolerancia de Bujías	0.6 a 0.8 mm
Lubricación	Bomba Húmeda de Aceite, Forzada.
Arranque	Eléctrico
Transmisión	Mecánica 5 velocidades
FRENOS	
Freno Delantero	Freno de Disco Hidráulico
Freno Trasero	Bandas Expandibles
CAPACIDAD DEL TANQUE	
Lleno	15 Litros
Reserva	3.2 Litros
Reserva Utilizable	2 Litros
LLANTAS	
Llanta Delantera	90/90 x 17 49P TUBELESS
Presión Aire Llanta Delantera	28 PSI
Llanta Trasera	120/80 x 17 61P TUBELESS
Presión Aire Llanta Trasera (Solo)	28 PSI
Presión Aire Llanta Trasera (Con Parrillero)	30 PSI
SISTEMA ELECTRICICO	
Bombillo Farola	35/35 W
Luz de Stop	LED
Luces Direccionales	10 W
Indicadores del Tablero	LED
Velocímetro	Análogo Digital
Pito	12 V
Batería	12V 9 AH
DIMENSIONES	
Largo x Ancho x Alto	2035 mm x 750 mm x 1165 mm (GT)
	2035 mm x 765 mm x 1115 mm (GT BS IV)
Distancia Entre Ejes	1350 mm. (GT)
	1345 mm. (GT BS IV)
Altura al Piso	165 mm.
Peso en Seco	147 Kg. (GT)
	145 Kg. (GT BS IV)
