## Instructions for use of parts catalogue

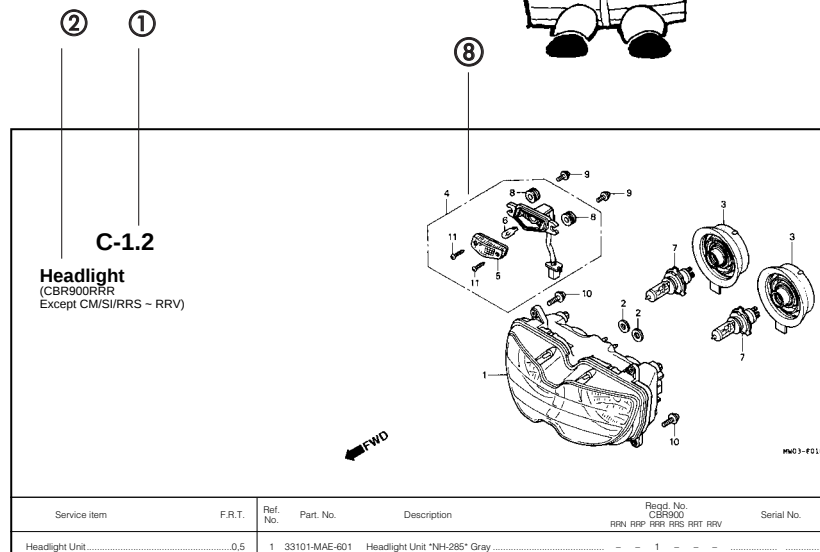

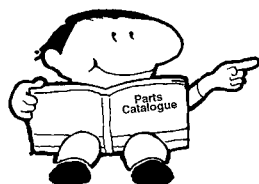

- This parts catalogue was prepared based on the latest information available as of March, 30, 2001.
- Always specify the part number when ordering a part.
  - Check the model, type, serial numbers, color, maker, and the size as needed before ordering a part.
  - Note that the illustrations (part drawings) can differ from the actual parts in shape. They are given just to help you to refer to the parts.
- When modifications or additions to this parts catalogue are made, a revised edition will be issued at an appropriate time, with successively progressing revision numbers on the cover.
- **We recommend obtaining such revisions in order to keep your parts catalogue up-to-date at all times. To check whether a parts catalogue revision has been issued, please contact your HONDA distributor.**

### ① Block number

### ② Block name

### ③ Service item/Flat rate time

### ④ Reference number

- Title number marked with the parenthesis or parentheses indicates that it continues from the previous page.

### ⑤ Part number

### ⑥ Description

### ⑦ HONDA color code

### ⑧ Assemblies

- Sections framed with broken lines in the exploded view drawings are available as complete assemblies. (Their individual parts can also be obtained.)

### ⑨ Color description

### ⑩ Attention

- Attention are shown with the parentheses in the part name column.

### ⑪ Required quantity

- Reqd. QTY shown in the parenthesis or parentheses indicates the optional part.
- Reqd. QTY marked with "N" indicates the optional part that should be selected as needed.
- Reqd. QTY indicates the number of the part used in the block.

### ⑫ Serial number

### ⑬ Note

## When the parts were revised

## How to check the part block and serial numbers

## Models, area codes and applicable serial numbers

Models, area codes and applicable serial Nos. given in this parts catalogue can be identified as follows.

Parts with area codes are exclusive for models destined for countries designated.

If no area codes are listed, parts are for common use.

| Model  | Area code | Type                 | Applicable engine serial No. | Applicable frame serial No. | Applicable carburetor identification No. |
|--------|-----------|----------------------|------------------------------|-----------------------------|------------------------------------------|
| XL2002 | DK        | General Export (KPH) |                              |                             | PD9AE                                    |
|        | 2LA       | Latin America        |                              |                             | PD9AD                                    |
|        | CL        | Chile                |                              |                             | PD9AC                                    |

\* Of carburetor identification numbers, only the portions underlined in the example below are used for registration.

PD9AE KC

### Selection table for lock or blank key

Refer to the following selection table to select the lock or blank key.

| Type | Key No.  |
|------|----------|
| 1    | A**, B** |

\*: 0, 1, 2, 3, 4, 5, 6, 7, 8 or 9

## Color label

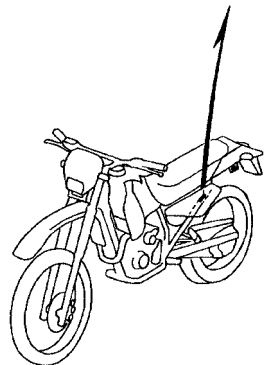

- When ordering parts, check the model name, main color, and code by observing the "COLOR LABEL" on the vehicle.
- When ordering a colored part, use the color chart in the instruction for use of parts catalogue.

## Fuel hose, general purpose hoses and vinyl hose

- The standard part fuel hose, general purpose hose and vinyl hose may be substituted by the coiled bulk part.
- When ordering the standard part fuel hose, general purpose hose and vinyl hose use the bulk part number written in the parts catalog in brackets ( ) underneath the part name, or use the catalog below.  
(The bulk part standard length is 1 m, however, those displayed in the catalog < > are available in 3 m and 8 m length).
- When exchanging the hose, cut and use at the specified length as mentioned in the part name.  
(For the method of cutting the bulk part, and method of filling out orders etc., please refer to the service manual and the instructions issued with the bulk part.)
- The list below is a catalog of the standard part numbers and bulk part numbers. Note that those number are applicable to the listed replacement parts only.

| Fuel hose            |                   |                      |            | General purpose hose |                   |                      |            | General purpose hose |                   |                      |            |
|----------------------|-------------------|----------------------|------------|----------------------|-------------------|----------------------|------------|----------------------|-------------------|----------------------|------------|

### WARNING

It is DANGEROUS to confuse fuel hose with the general purpose hose or vinyl hose.

Never use a general purpose hose or vinyl hose in place of a fuel hose or vice versa.

Always use the correct bulk part in the parts catalogue, according to the service manual or the instructions issued with the bulk part.

## Bulk part number of fuel hose, general purpose hose and vinyl hose

Example: 9 5 0 0 1 - 7 5 0 0 1 - 5 0 M

Bulk part number: Refers to the bulk part.

Marking code (hose type) : (fuel hose and general purpose hose)

Change code (for added hose) : (Vinyl hose)

- Indicates number mark or change sequence, however, the code for the bulk part must be strictly 0 (zero)

Types of code:

- Fuel hose: 5 : Black inside braid  
2 : Red outside braid  
(3 mm inside dia. only)  
6 : Black  
3 : Red (3 mm inside dia. only)  
4 : Ash gray with red stripe  
(3 mm inside dia. only)

- General hose: 1 : Ash gray  
2 : Ash gray  
3 : Black  
5 : Black

- Vinyl hose: 1 : Clear  
2 : Black  
3 : Light red  
7 : Pale black  
6 : Light red

Lengths : 001 : 1 m (Standard)

003 : 3 m

008 : 8 m

I.D. code : (fuel hose and general purpose hose)

Hose type : 1 Fuel hose  
2 General hose  
3 Vinyl hose

## How to use the flat rate time (F.R.T.)

This F.R.T. (Flat Rate Time) is used to determine the standard labor time allowed for replacement of parts covered by the warranty during the period the warranty is in effect. The F.R.T. for those parts which are not listed herein should be determined from the operation closely related to the replacement of that part.

### 1. The F.R.T. is based on the following servicing conditions

- A liberal allowance is added to the net servicing time.
- Standard times specified are based on the condition that the necessary servicing tools listed in the service manual (motorcycle) which describes the HONDA service policy are available close at hand and the work performed by a mechanic with normal skill.
- Time required for inspection and operational test following the servicing is included in the F.R.T.

### 2. Method of computing

The job times are listed in tenth of an hour to simplify computation.

Example: 0,3 = 18 minutes

5,6 = 5 hours and 36 minutes

| Conversion Chart |         |       |         |
|------------------|---------|-------|---------|
| Hours            | Minutes | Hours | Minutes |
| 0,1              | 6       | 0,6   | 36      |
| 0,2              | 12      | 0,7   | 42      |
| 0,3              | 18      | 0,8   | 48      |
| 0,4              | 24      | 0,9   | 54      |
| 0,5              | 30      | 1,0   | 60      |

### 3. Computing the F.R.T.

When several jobs are performed at the same time, make the calculation in the following manner.

a. Jobs of non duplicated nature

The F.R.T. for the job is obtained by totalling the F.R.T. for each part replaced.

Example: Replacement of cylinder and clutch spring.

| Service item  | F.R.T. |
|---------------|--------|
| Cylinder      | 1.8    |
| Clutch Spring | 0.8    |

The F.R.T. for the job is:  $1.8 + 0.8 = 2.6$

b. Jobs of duplicated nature

Take the F.R.T. for the last part to be replaced.

Example: Replacement of piston and cylinder head gasket.

| Service item         | F.R.T. |
|----------------------|--------|
| Cylinder head gasket | 1.5    |
| Pistón               | 1.9    |

The F.R.T. for the job is: 1.9

c. Jobs of partially related nature

Total up the F.R.T. for all of the parts replaced and then subtract the F.R.T. for the duplicated operation.

Example: Replacement of gearshift drum and crankshaft comp.

| Service item          | F.R.T. |
|-----------------------|--------|
| Gearshift drum        | 4.1    |
| Crankshaft comp.      | *4.3   |
| Crankcase disassembly | *3.9   |

The F.R.T. for the job is:  $(4.1 + 4.3) - 3.9 = 4.5$

Crankcase disassembly is the duplicated operations.

- The F.R.T. shown with (\*) includes engine removal and installation.
- The parts, having the same number of man-hour, are identified by a mark "●", and classified under the title of their representative work.

### 4. Operations other than replacing parts

a. Removal and instalation

| No. | Service item          | F.R.T. |
|-----|-----------------------|--------|
| 1   | Carburetor            | 0.9    |
| 2   | Engine                | 2.2    |
| 3   | Cylinder Head         | *3.1   |
| 4   | Crankcase Disassembly | *5.7   |

b. Adjustment, measurement and cleaning  
Engine

| No. | Service item                       | F.R.T. |
|-----|------------------------------------|--------|
| 1   | Carburetor Idle Adjustment         | 0.1    |
| 2   | Throttle Operation Adjustment      | 0.1    |
| 3   | Clutch Adjustment                  | 0.1    |
| 4   | Ignition Timing Inspection         | 0.2    |
| 5   | Oil Filter Screen Cleaning         | 0.9    |
| 6   | Carburetor Float Level Measurement | 1.1    |
| 7   | Valve Clearance Adjustment         | 1.8    |

## Frame

| No. | Service item           | F.R.T. |
|-----|------------------------|--------|
| 1   | Rr. Brake Adjustment   | 0.1    |
| 2   | Brake Operation Test   | 0.1    |
| 3   | Headlight Aimings      | 0.1    |
| 4   | Drive Chain Adjustment | 0.1    |
| 5   | FR. Brake Air Bleeding | 0.2    |

## c. Overhaul

| No. | Service item        | F.R.T. |
|-----|---------------------|--------|
| 1   | Carburetor Overhaul | 1.7    |

Instructions pour l'utilisation du catalogue de pièces

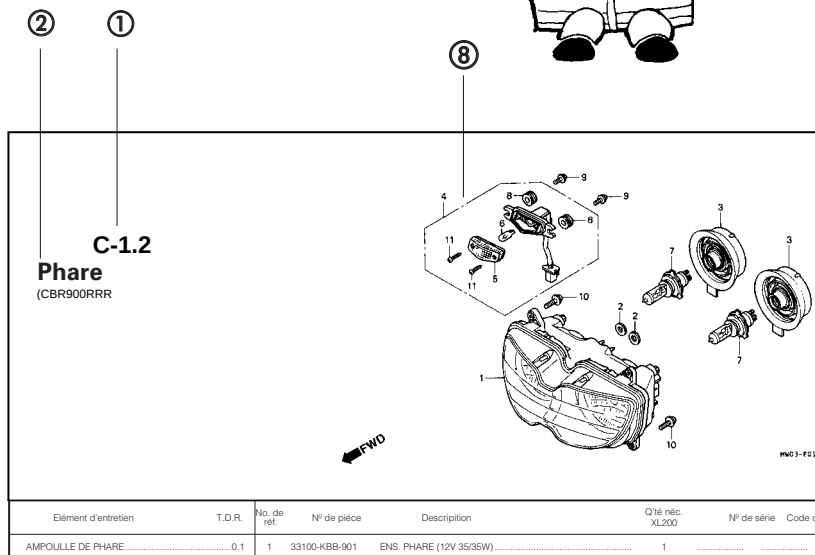

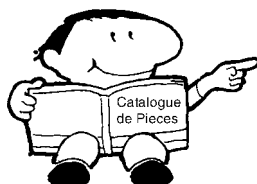

- Ce catalogue de pièces a été préparé en se basant sur les dernières informations disponibles au 30 juin 2001.
- **Toujours spécifier le numéro de pièce lors de la commande d'une pièce.**
- Vérifier le modèle, type, les numéros de série, la couleur, le fabricant et la taille comme il convient avant de commander une pièce.
- Noter que les illustrations (schémas de pièce) peuvent varier en forme par rapport aux pièces actuelles  
Elles sont simplement donnés pour vous aider à vous reporter aux pièces.
- **Lorsque des modifications ou des additions au catalogue de pièces sont apportées, une édition révisée est publiée à un moment approprié, avec un numéro de révision progressif sur la couverture. Nous recommandons d'obtenir ces révisions afin de garder à tout moment le catalogue de pièces à jour. Pour vérifier si une révision du catalogue de pièces a été publiée, prière de contacter votre distributeur HONDA.**

### ① Titre de bloc

### ② Numero de bloc

### ③ Item d'entretien de réparation

### ④ Numéro de référence

- Numéro de titre marqué entre parenthèses ou les parenthèses indiquent qu'il continue de la page précédente.

### ⑤ Numéro de pièce

### ⑥ Code de couleurs HONDA

### ⑦ Description

### ⑧ Ensembles

- Les sections encadrées de lignes brisées dans les schémas de vue éclatée sont disponibles comme ensemble complets. (Leurs pièces individuelles peuvent également être Obtenues.)

### ⑨ Description de couleur

### ⑩ Note

- Les notes sont indiquées entre parenthèses dans la colonne désignation de pièce.

### ⑪ Quantité nécessaire

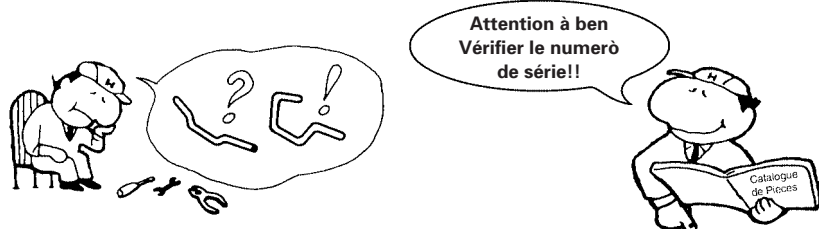

- La Q'té néc. Indiquée dans la ou les parenthèses indique la pièce en option.
- La Q'té néc marquée d'un N indique la pièce en option qui devrait être sélectionnée le cas échéant.
- La Q'té néc. Indique le numéro de la pièce utilisée dans le bloc.

### ⑫ Numéro de série

### ⑬ Code de catalogue de pièces

- Lorsque la colonne code du catalogue de pièces est vierge, cela indique que la pièce est appropriée à tous les types.

## Lorsque les pièces ont été révisées

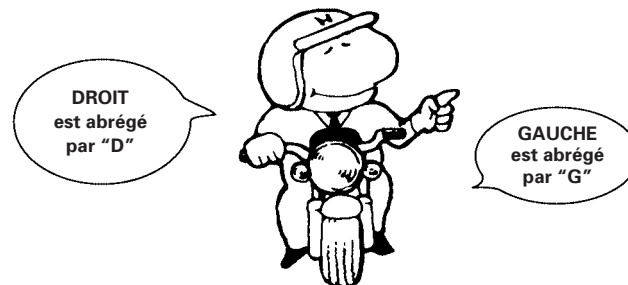

| Je. if. | N° de pièce     | Description                         | Q'té néc. CB400 | N° de série |

## Comment vérifier le bloc de pièce et les numéros de série

## Modèles, codes du catalogue de pièces et numéros de série applicables

Les modèles, codes du catalogue de pièces et numéros de série applicables précisés dans ce catalogue de pièces détachées peuvent être identifiés de la manière suivante:  
Les pièces affectées des codes du catalogue de pièces sont réservées exclusivement aux modèles destinés aux pays spécifiques.  
Si aucun code de zone n'est précisé, les pièces sont communes à tous les modèles.

| Modèle | Code de zone | Type                       | N° de série applicable du moteur | N° de serie applicable du cadre | N° de identification applicable du carburateur |
|--------|--------------|----------------------------|----------------------------------|---------------------------------|------------------------------------------------|
| XL2002 | DK           | Exportation générale (KPH) |                                  |                                 | PD9AE                                          |

## Numéro de pièce en vrac des flexibles à carburant, flexibles tous usages et flexibles en vinyle.

Ejemplo: 9 5 0 0 1 - 7 5 0 0 1 - 5 0 M

Numéro de pièce en vrac: Voir la pièce en vrac.

Code de marquage (Type de flexible):(Flexible à carburant et flexible tous usages)

Code de modification (pour flexibles ajoutés); (flexible em vinyle)

• Indique le numéro ou la série modifiée: le code de pièce en vrac, cependant , doit toujours être 0 (zéro).

Types de code:

• Flexibles à

- carburant: 5: Noir tresse interne
- 2:Rouge tresse externe  
(dia. Interne 3mm uniquement)
- 6: noir
- 3: Rouge (dia. interne 3mm  
uniquement)
- 4: Gris cendré à bandes rouges  
(dia. Interne 3mm uniquement)

• Flexible em vinyle: 1:Transparent

- 2:Noir
- 3: Rouge clair
- 7: Noir pale
- 6: Rouge clair

• Flexibles tous usages: 1: Gris cendré

- 2:Gris cendré
- 3: Noir
- 5: Noir

Longueur : 001:1m (Standard)

003:3m  
008:8m

Code d'identification : (Flexibles à carburant et flexibles tous usages)

## Emploi de durée uniform de temps de réparation (T.D.R.)

La notion de durée uniforme de temps de réparation (T.D.R.) est utilisée pour déterminer la durée moyenne des opérations de réparation pour le remplacement des pièces qui sont couvertes par la garantie pour la période de validité de cette dernière.

Le T.D.R. des pièces qui ne sont pas indiquées dans cette publication doit être par le fonctionnement en relation étroite avec le remplacement de la pièce concernés.

### 1. Le T.D.R. est établi sur les conditions d'entretien suivantes

- Une allocation mensuelle est ajoutée à la durée d'entretien.
- Les durées nominales spécifiées s'appuient sur les conditions qui impliquent que les outils d'entretien indispensables détaillés dans le manuel d'entretien (motocyclette) qui décrit la politique d'entretien de la société Honda, sont disponibles à portée de main tandis que les travaux de réparation sont réalisés par une mécanique affirmant une précision de travail normale.
- La durée nécessaire pour effectuer les vérifications et les essais de fonctionnement suivants les opérations d'entretien est comprise dans le T.D.R.

### 2. Méthode de calcul

Les durées de travaux de réparation sont présentées sous forme de liste en dixième d'heure pour simplifier les opérations.

Exemple: 0,3 = 18 minutes

5,6 = 5 heures et 36 minutes

Tableau de Conversion

| Heures | Minutes | Heures | Minutes |
|--------|---------|--------|---------|
| 0,1    | 6       | 0,6    | 36      |
| 0,2    | 12      | 0,7    | 42      |
| 0,3    | 18      | 0,8    | 48      |
| 0,4    | 24      | 0,9    | 54      |
| 0,5    | 30      | 1,0    | 60      |

### 3. Calcul du taux de tarif forfaitaire

Ce qui suit ne constitue que des exemples et ne reflète aucunement le taux de tarif forfaitaire réel pour ce produit.

Quand plusieurs tâches sont réalisées en même temps, effectuer le calcul de la manière suivante:

a. Tâches sans duplication

Le taux de tarif forfaitaire pour la tâche est obtenu en totalisant le taux de tarif forfaitaire pour chaque pièce remplacée.

(Exemple): Remplacement du joint de culasse et du filtre à huile.

| Elément d'entretien         | T.D.R. |
|-----------------------------|--------|
| Joint d'étanchéité, culasse | 1,8    |
| Cartouche, filtre à huile   | 0,8    |

Le taux de tarif forfaitaire pour la tâche est:  $1,8 + 0,8 = 2,6$

b. Tâches avec duplication

Retenir le taux de tarif forfaitaire pour la dernière pièce à remplacer.

(Exemple) Remplacement du piston et du joint de culasse.

| Elément d'entretien     | T.D.R. |
|-------------------------|--------|
| Comp. de joint, culasse | 1,5    |
| Piston                  | *1,9   |

Le taux de tarif forfaitaire pour la tâche est: 1,9

c. Tâches étant partiellement en rapport

Totaliser le taux de tarif forfaitaire pour toutes les pièces remplacées, puis soustraire le taux forfaitaire pour les opérations avec duplication (c. -à- d., entretien du joint d'étanchéité de culasse).

Ejemplo: Reemplazo de eje contra y ensamble del cigüeñal.

| Elément d'entretien                  | T.D.R. |
|--------------------------------------|--------|
| Soupape rum                          | 4,1    |
| Ens. de culasse                      | *4,3   |
| Comp. de joint d'étanchéité, culasse | *3,9   |

Le taux de tarif forfaitaire pour la Tâche est:  $(4,1 + 4,3) - 3,9 = 4,5$

- Le taux de tarif forfaitaire indiqué par (\*) comprend le démontage et l'installation du moteur.
- Les pièces comportant le même composant factoriel d'hommes/heures sont indentifiées par la marque "•", et classées sous la désignation de leur travail représentatif.

#### 4. Opérations autres que le remplacement de pièces

##### a. Dépose et repose

| N° | Item d'entretien     | T.D.R. |
|----|----------------------|--------|
| 1  | Moteur               | 1.9    |
| 2  | Culasse              | *2.7   |
| 3  | Carburateur          | 0.5    |
| 4  | Séparation du carter | *4.3   |

##### b. Réglage, mesure et nettoyage Moteur

| N° | Item d'entretien                                            | T.D.R. |
|----|-------------------------------------------------------------|--------|
| 1  | Réglage et nettoyage de bougie d'allumage                   | 0.1    |
| 2  | Réglage de ralenti de carburetor                            | 0.1    |
| 3  | Vérification de l'huile moteur                              | 0.1    |
| 4  | Mesure de pression de compression                           | 0.1    |
| 5  | Vérification de niveau et densité d'électrolyte de batterie | 0.1    |
| 6  | Mesure de niveau du flotteur de carburateur                 | 0.5    |
| 7  | Réglage de l'élément de filtrage                            | 0.1    |
| 8  | Vérification de temps d'allumage                            | 0.2    |
| 9  | Nettoyage del l'élément de filtrage                         | 0.2    |
| 10 | Reglage de l'embrayage                                      | 0.1    |
| 11 | Nettoyage de crépine du filtre à huile                      | 0.9    |
| 12 | Réglage de jeu des soupapes                                 | 0.3    |
| 13 | Réglage de la chaîne de distribution                        | 0.1    |

##### Bastidor

| N° | Item d'entretien                               | T.D.R. |
|----|------------------------------------------------|--------|
| 1  | Purge d'air de frein avant                     | 0.2    |
| 2  | Réglage de frein arrière                       | 0.1    |
| 3  | Essai de fonctionnement de frein               | 0.1    |
| 4  | Réglage de faisceau de projecteur              | 0.1    |
| 5  | Réglage de tension de la chaîne d'entraînement | 0.1    |

##### c. Revisión general

| N° | Item d'entretien | T.D.R. |
|----|------------------|--------|
| 1  | Carburateur      | 0.7    |

Instrucciones para emplear el catálogo de piezas

- Este catálogo de piezas ha sido preparado en base a la última información disponible el 30 de June, 2001.
- Especifique siempre el número de pieza cuando realice un pedido de piezas.
- Compruebe los números de modelo, de tipo, y de serie, el color, marca, y tamaño como sea necesario antes de realizar el pedido de una pieza.
- Tenga presente que las ilustraciones (planos de las piezas) pueden diferir de las piezas reales en su forma. Se incluyen sólo para que le sirvan de referencia para consultar las piezas.
- **Cuando se efectúen modificaciones o adiciones en el catálogo de piezas, se editará una edición revisada en el momento apropiado, con un número de revisión sucesivamente progresivo en la tapa. Le recomendamos que obtenga estas revisiones para mantener al día su catálogo de piezas en todo momento. Para comprobar si se ha editado una revisión del catálogo de piezas, póngase en contacto con su distribuidor HONDA.**

- ① Número del bloque
- ② Título del bloque
- ③ Artículo de servicio/Tarifa Horaria Llana (THLL)
- ④ Número de referencia
  - El número del título marcado con el paréntesis indica que continúa desde la página anterior.
- ⑤ Número de pieza
- ⑥ Descripción
- ⑦ Código de color HONDA
- ⑧ Conjuntos
  - Las secciones enmarcadas con líneas discontinuas en los diagramas detallados están disponibles como conjuntos completos (también pueden obtenerse sus partes individuales.)
- ⑨ Descripción del color
- ⑩ Observación
  - La observación se indica con los paréntesis en la columna del nombre de pieza.
- ⑪ Cantidad requerida
  - La Cant. reqd. indicada en el paréntesis indica la pieza opcional.
  - La Cant. reqd. marcada con "N" indica la pieza opcional que debe seleccionarse según sea necesario.
  - La Cant. reqd. indica el número de la pieza utilizada en el bloque.
- ⑫ Número de serie
- ⑬ Nota

El número ha sido utilizado desde el modelo inicial sin revisiones.

Cuando se muestra en el lado izquierdo, es aplicable a los modelos No. 2351160 y números subsiguientes.

Cuando se muestra en el lado derecho, es aplicable a los modelos hasta el No. 2351159.

## Abreviaturas empleadas en el catálogo de piezas

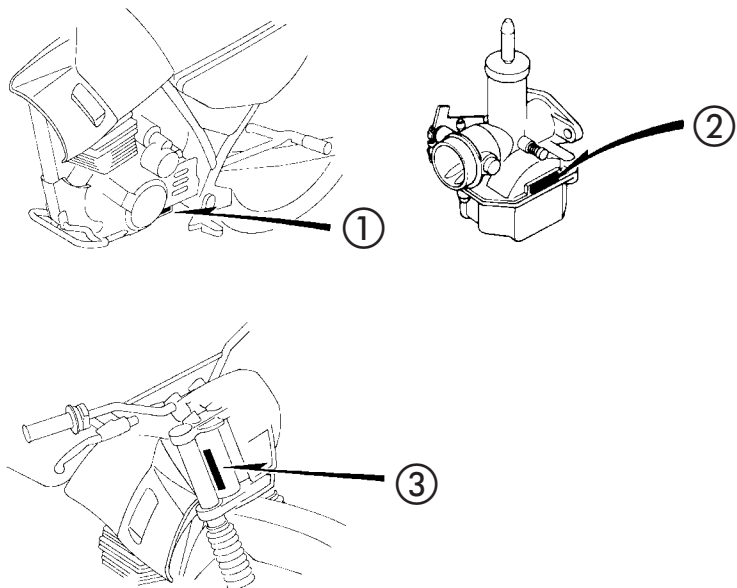

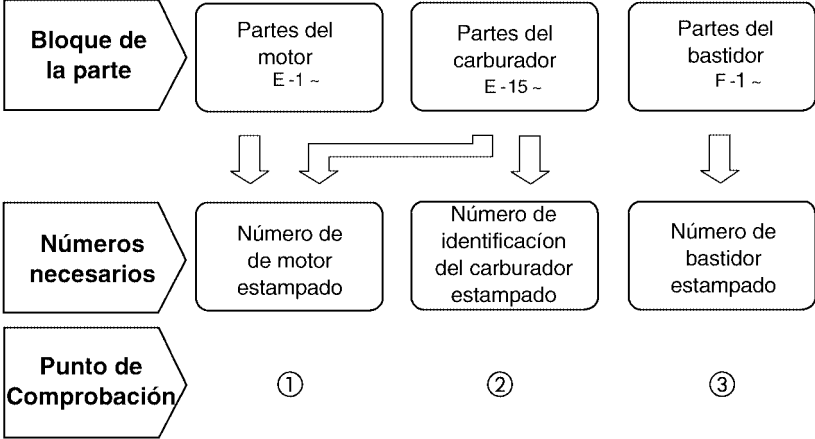

\* "IZQ." e "DER." en la descripción de una pieza significa el lado IZQUIERDO o el DERECHO. Determine el izquierdo o derecho como si usted estuviera en el asiento de la motocicleta.

• En este catálogo de piezas se utilizan las abreviaturas siguientes.

|              |                                                                                                               |
|--------------|---------------------------------------------------------------------------------------------------------------|
| ENS. ....    | Ensamble (Conjunto)                                                                                           |
| COMP. ....   | Completo                                                                                                      |
| DER. ....    | Derecho                                                                                                       |
| IZQ. ....    | Izquierdo                                                                                                     |

Cómo comprobar el bloque de partes y los números de série

Modelos, Códigos de área y Nos. de serie aplicables

Los modelos, códigos de área y Nos. de serie aplicables que se dan en este catálogo de piezas pueden identificarse como sigue.  
Si no están en lista los códigos de área, las piezas son para uso común.

| Modelo | Código de Área | Tipo                      | No. de serie aplicable de motor | No. de serie aplicable de bastidor | No. de identificación aplicable de carburador |
|--------|----------------|---------------------------|---------------------------------|------------------------------------|-----------------------------------------------|
| XL2002 | DK             | Exportación general (KPH) |                                 |                                    | PD9AE <u>A</u>                                |
|        | 2LA            | Latin America             |                                 |                                    | PD9AD <u>A</u>                                |
|        | CL             | Chile                     |                                 |                                    | PD9AC <u>A</u>                                |

\* De los números de identificación de carburador, sólo las porciones subrayadas en el ejemplo siguiente se usan para registro.

PD9AE A KC 7

Tabla de selección para llave ciega o abertura

| Tipo | No. de llave |
|------|--------------|
| 1    | A**, B**     |

\*: 0, 1, 2, 3, 4, 5, 6, 7, 8 ou 9

## Etiqueta de Color

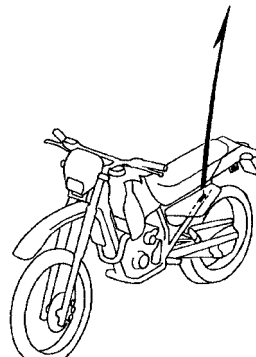

- Al pedir piezas, compruebe el nombre del modelo, el color principal y el código observando la etiqueta de color "COLOR LABEL" de vehículo.
- Al pedir una pieza de color, utilizar la gráfica de colores de las instrucciones sobre catálogo de piezas.

## Número de parte sin envasar de la manguera de combustible, manguera de aplicaciones generales y manguera de vinilo

Ejemplo: 9 5 0 0 1 - 7 5 0 0 1 - 5 0 M

Número de parte sin envasar: Se refiere a la parte sin envasar.

Código de marca (tipo de manguera): (manguera de combustible y manguera de aplicaciones generales)

Código de cambio (para manguera añadida): (manguera de vinilo)

- Indica la marca de número o secuencia de cambio, aunque el código para la parte sin envasar debe ser estrictamente 0 (cero).

Tipos de código:

- Manguera de combustible:
  - 5 : Trenzado interior negro
  - 2 : Trenzado exterior rojo (sólo 3 mm de diametro interior)
  - 6 : Negro
  - 3 : Rojo (sólo 3 mm de diámetro interior)
  - 4 : Gris ceniza con franja roja (sólo 3 mm de diametro interior)

- General hose:
  - 1 : Gris ceniza
  - 2 : Gris ceniza
  - 3 : Negro
  - 5 : Negro

- Manguera de vinilo:
  - 1 : Transparente
  - 2 : Negro
  - 3 : Rojo claro
  - 7 : Negro pálido
  - 6 : Rojo claro

Longitudes : 001 : 1 m (Estancar)

003 : 3 m

008 : 8 m

Código de diametro int : (Manguera de combustible y manguera de aplicaciones generales)

2 Manguera de aplicaciones generales  
3 Manguera de vinilo

## Modo de usar la tarifa horaria llana (THLL)

La THLL (Tarifa Horaria Llana) se emplea para determinar el tiempo de trabajo de promedio permitido para el cambio de las partes protegidas por la garantía durante su período de validez. La THLL para las partes que no estén en lista han de ser determinadas por el cambio de dichas partes.

### 1. La THLL se base en las siguientes condiciones de servicio

- Al tiempo neto de servicio se añade una amplia tolerancia.
- Los tiempos de promedio especificados se basan en la condición de que las herramientas necesarias de servicio que aparecen en la lista del manual de servicio (motocicleta) que describe la política de servicio de HONDA están disponibles a mano, y de que el trabajo se ejecuta por un mecánico de habilidad normal.
- El tiempo requerido para la inspección y para la prueba de funcionamiento que sigue al servicio se incluye en la THLL.

### 2. Método de computación

Los tiempos de trabajo se dan en décimas de hora para facilitar el cómputo.

Ejemplo: 0,3 = 18 minutos  
5,6 = 5 horas y 36 minutos

| Cuadro de Conversion |         |       |         |
|----------------------|---------|-------|---------|
| Horas                | Minutos | Horas | Minutos |
| 0,1                  | 6       | 0,6   | 36      |
| 0,2                  | 12      | 0,7   | 42      |
| 0,3                  | 18      | 0,8   | 48      |
| 0,4                  | 24      | 0,9   | 54      |
| 0,5                  | 30      | 1,0   | 60      |

### 3. Computación de la THLL

Cuando se hacen muchos trabajos a un mismo tiempo, el cómputo ha de efectuarse de la siguiente manera.

- Trabajos de naturaleza no duplicada

La THLL para el trabajo se obtiene sacando el total (de ella) para cada parte reemplazada.

Ejemplo: Cambio del Culata y del resorte de embrague.

| Artículo de Servicio | THLL |
|----------------------|------|
| Culata               | 1,8  |
| Resorte de embrague  | 0,8  |

O T.M.O. para el servicio es  $1,8 + 0,8 = 2,6$

- Trabajos de naturaleza duplicada

Sáquese la THLL para la última parte que ha de reemplazarse.

Ejemplo: Cambio de pistón y de junta de cabeza de cilindro

| Artículo de Servicio        | THLL |
|-----------------------------|------|
| Junta de culata de cilindro | 1,5  |
| Pistón                      | 1,9  |

O T.M.O. para el servicio es 1,9

- Trabajos de naturaleza parcialmente relacionada.

Totalice la THLL para todas las partes reemplazadas y resta luego la THLL para la operación duplicada.

Ejemplo: Reemplazo de eje contra y ensamble del cigüeñal.

| Artículo de Servicio            | THLL |
|---------------------------------|------|
| Eje contra                      | *4,1 |
| Cigüeñal                        | *4,3 |
| Desarme del Cáster del Cigüeñal | *3,9 |

La THLL para todo el trabajo será:  $(4,1 + 4,3) - 3,9 = 4,5$

El desarme del cáster del cigüeñal constituye la operación duplicada.

- La THLL marcada con (\*) incluye la instalación y el retiro del motor.
- Las partes que tienen el mismo número de hombre-hora, se identifican con una marca "•" y se clasifican bajo el título de su trabajo representativo.

#### 4. Operaciones distintas al cambio de partes

##### a. Retiro e Instalación

| No. | Artículo de servicio | THLL |
|-----|----------------------|------|
| 1   | Carburador           | 0.9  |
| 2   | Motor                | 2.2  |
| 3   | Culata del Cilindro  | *3.1 |
| 4   | Cárter               | *5.7 |

##### b. Ajuste, medición y limpieza Motors

| No. | Artículo de servicio                     | THLL |
|-----|------------------------------------------|------|
| 1   | Ajuste del Carburador em Ralenti         | 0.1  |
| 2   | Ajuste Aceleración                       | 0.1  |
| 3   | Ajuste Embrague                          | 0.1  |
| 4   | Inspección de Punto del Igniciónn        | 0.2  |
| 5   | Limpeza del Filtro del Aceite            | 0.9  |
| 6   | Carburador Inspección del Nivel Flotante | 1.1  |
| 7   | Ajuste del Alzavalvulas                  | 1.8  |

##### Bastidor

| No. | Artículo de servicio                                                    | THLL |
|-----|-------------------------------------------------------------------------|------|
| 1   | Ajuste del Freno Trasero                                                | 0.1  |
| 2   | Regulage Freno                                                          | 0.1  |
| 3   | Enfoques de Faro                                                        | 0.1  |
| 4   | Cadena de Mando (Incluye ajuste de Tensión, mas no de Incluye la troca) | 0.1  |
| 5   | Freno Delantero Expulsión de Aire                                       | 0.2  |

##### c. Revisión general

| No. | Artículo de servicio | THLL |
|-----|----------------------|------|
| 1   | Carburador           | 1.7  |
